

Clark Forklift

Presently, there are at least 350,000 Clark lift trucks performing worldwide, and more than 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique makes of lift trucks, with parts covering more than 120,000 specialized parts for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your parts needs supplied by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to offer the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a really amazing worldwide support network. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is at this time a customary feature on every forklift.

Clark's continual goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the world to be certified with the globally accepted quality standard ISO 9001 for every one of their manufacturing plants. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Lean Production

Clark has chosen the structure of "Lean Production" at all of its assembly plants because this technique is extremely economical and allows for minimal use of resources. Established to guarantee maximum efficiency, this system is designed to discover and acknowledge the most efficient methods for production plant management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Engine Design

Clark's product engineers and suppliers join together to develop the proficiency and excellence of their products while minimizing expenses. The new value engineering agenda combines innovative product development and delivers superior consumer support and service within the industry.
